Summary

Software developer with 2+ years of professional experience building cloud-native serverless systems, full-stack web applications, and automation pipelines. Proven experience with AWS (Lambda, API Gateway, DynamoDB), FastAPI, Python, C# / .NET, and Playwright. Has shipped production platforms used by real users. Strong communicator in English (C1/C2, EF SET 90/100) and Spanish (native). CCNA-certified with hands-on cloud security experience.

Professional Experience

Software Developer, Rita Group (Remote – International client based in the U.S.) Jan 2024 – Present

- Designed and launched MKT by Rita (mkt.ritaxyz.com), a full B2B marketplace platform with business discovery, category and location filters, events, collections, and role-based access control for customers and business owners.
- Built an AI conversational assistant on AWS Lambda, API Gateway, and DynamoDB, with messaging integration via Chatbase and Twilio.
- Implemented secure authentication using Google and Apple ID; designed a scalable serverless backend with data persistence and analytics.
- Delivered a responsive, accessible, SEO-optimized UX/UI with social media connectivity and a CI/CD deployment pipeline.

Security Engineer, Sumadi Jun 2023 – Dec 2023

- Reduced AWS costs and security incidents by 35% by implementing strengthened security measures and cloud best practices.
- Automated AWS Linux server patching through Python scripts, saving the engineering team more than 35 hours per month.
- Detected, prevented, and remediated 100+ vulnerabilities on AWS Linux servers using Nessus and PrismaCloud.
- Documented processes and user manuals in Confluence; collaborated with cross-functional teams under Scrum methodology.

IT Technician, Banco de Occidente May 2014 – Dec 2014

- Provided hardware and software technical support across bank branches; managed IT inventory and assisted with systems maintenance.

Projects & Achievements

- Data Extractor** (github.com/alexismejiaf/Data-Extractor): Production-grade document extraction engine in C# / .NET 8 using Playwright, HtmlAgilityPack, PdfPig, and Regex. Supports web scraping, OCR, and structured data output.
- AI Tetris Agent with Computer Vision**: Autonomous agent that plays Tetris using Python and OpenCV; analyzes the board in real time and computes the optimal rotation and drop position for each piece.
- Snack Identifier**: Real-time product classification system using camera input and object recognition.
- Serverless AWS Chatbot**: Lambda-based chatbot infrastructure integrated with third-party APIs.
- Bookstore Inventory App**: Full CRUD web application built with React and Firebase.
- Honduras Startup Finalist**: Recognized for innovative tech projects (April 2018, May 2019).

Technical Skills

Languages: Python, C#, JavaScript, Java, C++

Backend: FastAPI, .NET, Express.js, Node.js, RESTful APIs

Cloud & DevOps: AWS Lambda, API Gateway, DynamoDB, Firebase, Vercel, CI/CD, Make (Integromat)

Frontend: React, Tailwind CSS, Bootstrap, HTML, CSS

Databases: SQL, DynamoDB, Cassandra, Supabase

Automation: Playwright, Selenium, Web Scraping, OCR, OpenCV, Computer Vision

Tools: Git, Postman, Nessus, PrismaCloud, Twilio, Confluence, Scrum

Education

Universidad Tecnológica Centroamericana (UNITEC), Tegucigalpa, Honduras

Bachelor's Degree in Computer Systems Engineering

Graduated: 2023

Certifications & Languages

- CCNA – Cisco Certified Network Associate
- English: Advanced C1/C2 – EF SET Score 90/100
- Spanish: Native
