Summary

Software developer with 2+ years of professional experience building serverless cloud systems, full-stack web applications, and automation pipelines. Proven track record in AWS (Lambda, API Gateway, DynamoDB), FastAPI, Python, C#/.NET, and Playwright. Delivered production platforms serving real users; strong communicator in English (C1/C2, EF SET 90/100) and Spanish (native). CCNA certified with a background in cloud security.

Professional Experience

Software Developer

Jan 2024 – Present

Rita Group (Remote) — U.S. International Client

- Architected and shipped **MKT by Rita** (mkt.ritaxyz.com), a full B2B marketplace platform featuring business discovery, category/location filtering, events, collections, and role-based access control for customers and business owners.
- Built a conversational AI assistant on AWS Lambda, API Gateway, and DynamoDB with Chatbase and Twilio messaging integration.
- Implemented secure authentication using Google and Apple ID; designed scalable serverless backend with data persistence and analytics.
- Delivered mobile-responsive, accessible UX/UI with SEO optimization, social media connectivity, and CI/CD deployment pipeline.

Security Engineer

Jun 2023 – Dec 2023

Sumadi

- Reduced AWS costs and security incidents by **35%** by implementing hardened security measures and cloud best practices.
- Automated AWS Linux server patching using Python scripts, saving **35+ hours/month** for the engineering team.
- Detected, prevented, and remediated 100+ vulnerabilities across AWS Linux servers using Nessus and PrismaCloud.
- Documented processes and user manuals in Confluence; collaborated cross-functionally under Scrum methodology.

IT Technician

May 2014 – Dec 2014

Banco de Occidente

- Provided hardware and software technical support across bank branches; managed IT inventory and assisted with systems maintenance.

Projects & Achievements

- **Data Extractor** (github.com/alexismejiaf): Production-grade document extraction engine in C#/.NET 8 using Playwright, HtmlAgilityPack, PdfPig, and Regex. Supports web scraping, OCR, and structured data output.
- **AI Tetris with Computer Vision**: Gesture-controlled Tetris using Python and OpenCV with real-time hand tracking.
- **Snack Identifier**: Real-time product classification system using camera input and object recognition.
- **AWS Serverless Chatbot**: Lambda-based chatbot infrastructure integrated with third-party APIs.
- **Bookstall Inventory App**: Full CRUD web application built with React and Firebase.
- **Honduras Startup Finalist**: Recognized for innovative tech projects (April 2018, May 2019).

Technical Skills

Languages	Python, C#, JavaScript, Java, C++
Backend	FastAPI, .NET, Express.js, Node.js, RESTful APIs
Cloud & DevOps	AWS Lambda, API Gateway, DynamoDB, Firebase, Vercel, CI/CD, Make (Integromat)
Frontend	React, Tailwind CSS, Bootstrap, HTML/CSS
Databases	SQL, DynamoDB, Cassandra, Supabase
Automation	Playwright, Selenium, Web Scraping, OCR, OpenCV, Computer Vision
Tools	Git, Postman, Nessus, PrismaCloud, Twilio, Confluence, Scrum

Education

Universidad Tecnológica Centroamericana (UNITEC), Tegucigalpa, Honduras
Bachelor of Science in Computer Systems Engineering

Graduated: 2023

Certifications & Languages

- **CCNA** — Cisco Certified Network Associate
- **English:** C1/C2 Advanced — EF SET score 90/100
- **Spanish:** Native
